

JOB CORPS

Career Technical Training • Education • Professional Skills

Job Corps is a career technical training and education program for students ages 16 through 24 who meet income requirements.

Each year Job Corps trains more than 60,000 students in more than 100 career technical areas at 122 centers across the nation. Job Corps offers hands-on training in America's fastest growing careers, and our graduates land high-wage jobs.

And the best part?

It's at no cost to you.

How Does Job Corps Work?

Most of your time on center will be devoted to career technical training and education. You'll learn the skills you need to get a high-paying job and become a successful professional.

Job Corps staff will help you create an individualized Personal Career Development Plan to stay on track for success. Job Corps staff also will help you write and submit your resume when you are ready to begin your job search.

Most students live on campus in dormitories. Some centers also serve nonresidential students who live close to the center. While enrolled in the program, you'll receive housing, basic medical care and a living allowance. Students are enrolled in Job Corps for up to two years depending on their career skills training.

Career Technical Training

Job Corps offers hands-on training in more than 100 career technical areas, including health occupations, information technology, business office technology, electrical wiring, auto repair, construction, culinary arts, welding and many more. All career technical training areas are aligned with industry certifications and are designed to meet the requirements of today's careers.

Education

Job Corps helps high school graduates launch their careers. If you haven't graduated from high school, Job Corps can help you earn your diploma or GED. Certified training staff are ready to help you reach your academic goals, and a tutoring program is available if you are looking for extra guidance.

After Graduation

Job Corps graduates get good jobs and have the support they need to start a successful career. Job Corps understands that being independent involves more than just having a job. When your training at Job Corps is complete, Job Corps will work with you for up to 18 months after you graduate. Counselors will assist you while you look for a job and can help you connect with local housing, transportation, and day-care resources in your neighborhood.

Contact Job Corps to find out about the centers closest to you and if you qualify for the program.

Administered by the U.S. Department of Labor, Job Corps is the nation's largest career technical training and education program for students ages 16 through 24. Job Corps is a U.S. Department of Labor Equal Opportunity Employer Program. Auxiliary aids and services are available upon request to individuals with disabilities. TDD/TTY telephone number is (800) 733-JOBS.
